# About Our Company

## A Brief Story About The Company

KRAFT ENERGY & ENGINEERING SDN BHD ("KEEN") is an international oil and gas service company providing comprehensive services of engineering, fabrication, construction, installation and commissioning of steel piping, pipeline and structure for wide range of industries including civil, petrochemical and oil & gas.

KEEN strive to be pathfinders with proven technical expertise in oil & gas downstream and upstream maintenance sectors that always innovate current technology and be extremely active in research & development progression worldwide. This has been core value of KEEN to ensure our current local market and technology will always be competitive and ahead.

KEEN's core business and expertise are as follows:

- Engineering & QAQC Consultancy
- Project Management
- Manpower Supply
- Steel Structure, Piping & Pipeline Onshore Fabrication
- NDT & Pre-commissioning
- Blasting & Painting Services
- Hook-Up & Commissioning
- Electrical & Instrumentation
- Sales & Rental of Cargo Carrying Unit (CCU)
- Unmanned Aerial Vehicles (UAV)
- Composite Repair Solutions
- Trading & Supplies
- Automation & PLC / IoT

# The Company

## Registration No.

1221978-M

## Paid-Up Capital / Working Capital

RM 1,000,000.00 / RM 5,000,000.00

## Operation Office

43-2, Jalan Cempaka 28,  
Cempaka Commercial Centre,  
70450 Seremban,  
N. Sembilan.

## Fabrication Yard 1

PT 30176, Jalan Sopan,  
Kampung Johan Setia.  
41200 Klang,  
Selangor.

## Fabrication Yard 2

PT 11284 & PT 11289,  
Tmn Industri Paka,  
23100 Paka, Dungun,  
Terengganu.

## Telephone / Fax No.

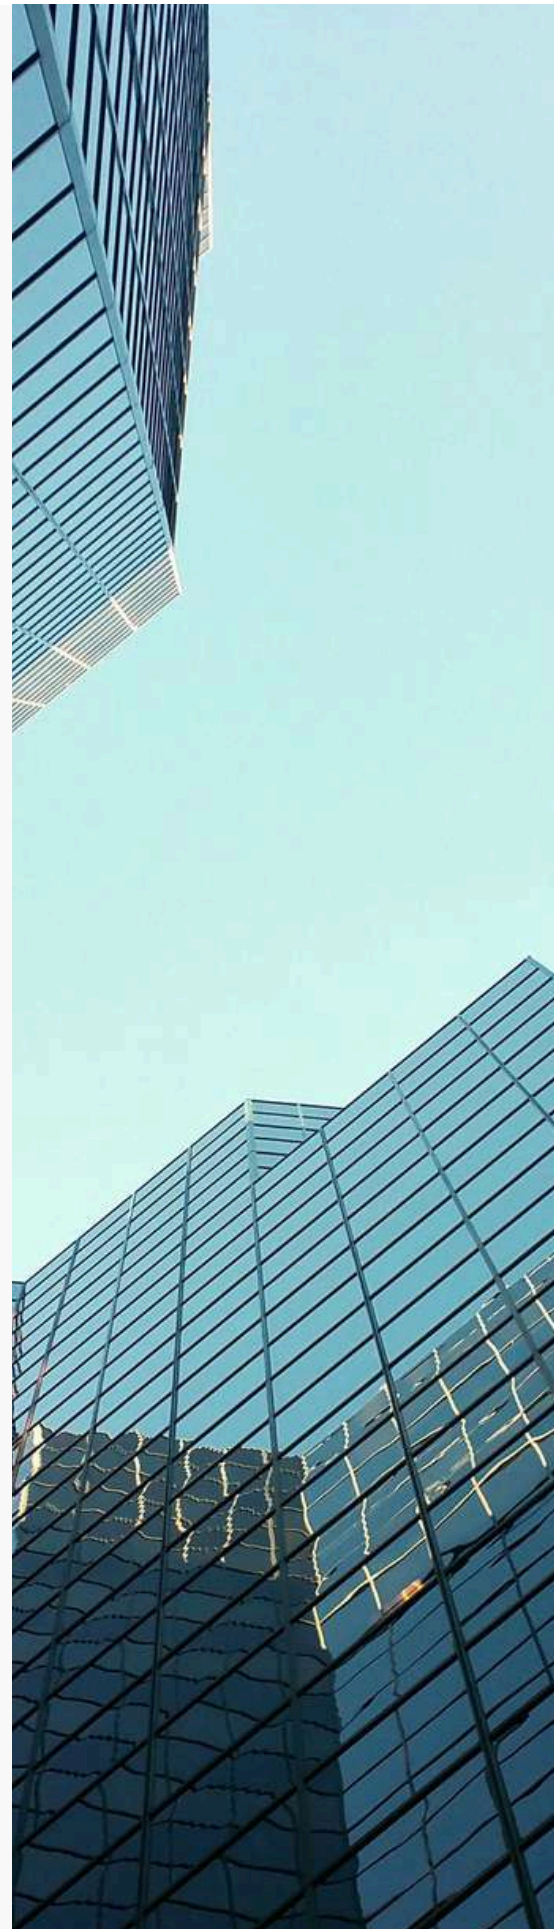

06-678 7511

# Core Values

## 01 Team Work

We recognize our primary asset; our people. KEEN is moving to be a rewarding place to work in a successful way. We provide opportunity and encouragement to help our people reach potential. We work with our clients as a team. Mutual respect provides the foundation for our success.

## 02 High Ethical Standards

We remain true to our founding values of quality, honesty and hard work. We have the highest ethical standards in the industry. KEEN are consistently associated with the high standards of service, quality, personal attention to clients and integrity.

## 03 Client Driven

We are proactive in finding solutions for our clients to best achieve their goals. Lasting relationships are the lifeblood of our business. What distinguishes is our staff commitment values which instilled to rightfully treat our client. We strongly uphold a German proverb – “Kunde is Koenig” means Client is King; with this we are truly dedicated to any projects awarded to us without any compromise of any clients or its values.

## 04 Innovative

Our role as contractor is to find solutions in places where it seems like there aren't any. Our clients look to us not just to execute to a project plan, but to provide creative solutions to complex problems. When delivery gets difficult, taking a step back and finding ways to innovate can lead to breakthroughs. We pride ourselves in constantly looking for new, breakthrough solutions to solve problems for our clients.

# Services - Engineering & Consultancy

KEEN is a leading independent engineering and design company in all aspects of services related to structure and pipelines. We are highly dedicated to provide technical excellence and supported by highly competent personnel to ensure enhanced performance of service throughout the project.

Our team specializes in coordinating and managing upstream and downstream oil & gas development projects which includes project feasibility studies, conceptual design, front end engineering and design (FEED), site survey, quality assurance / control and as-built project deliverables.

As part of quality sustainability, we encourage our team to take part in 3rd party supporting project QAQC activities such as welding procedure specification (WPS) and welder / welding operator qualification test (WQT) activities. As to date, KEEN has involved in various types of welding from mild & carbon steel to high-strength and dissimilar materials complying with different kinds of industrial codes & standards (ASME, AWS, API) and client specific standards.

## List of services:

- Engineering & Stress Analysis for DNV 2.7-1 Offshore Containers
- Front End Engineering Design (FEED)
- Detailed Process Design
- Piping and Instrumentation Diagram (P&ID) & Isometric
- Piping Stress Analysis
- Piping, Equipment & Instrumentation Specification & Datasheet
- Welding Procedure Specification (WPS) / WPQT Development & Welding Test
- NDT & Load Test Competency Courses

# Services - Fabrication & Construction

KEEN is well known and widely acknowledged as an integrated service provider for piping, pipeline and structure fabricator, hook-up and commissioning of offshore and onshore oil & gas installations. The scope of services covers engineering, procurement, fabrication, installation, hook-up and commissioning work.

For maximum benefits to clients, our services are delivered and execute on a single point basis of responsibility and accountability or integrated basis that guarantees operations efficiency, cost reduction and faster project turnaround.

HSE and QAQC procedures are implemented to all degree of operations to ensure compliance of project requirement in terms of applicable codes, standards and regulations.

## List of services:

- Onshore Fabrication (Piping, Pipeline & Structure)
- Engineering and Work Execution, Planning & Construction
- Provision of Construction Equipment and Personnel
- Procurement of Long Lead Project Materials
- Blasting Painting & Insulation Services
- Lifting & Rigging and Load Test Services
- Unfired Pressure Vessel Maintenance
- Cryogenic Tank Refurbishment
- NDT Inspections and Testing
- Electrical & Instrumentation
- Provision of Specialist Services such as Bolt Tensioning, Cold Cutting and Hot Tapping

# Services - Non-Destructive Test

In the realm of industrial operations, where precision, safety, and efficiency are paramount, Non-Destructive Testing (NDT) emerges as an indispensable tool. NDT techniques enable the evaluation of materials and components without causing damage, ensuring their integrity and reliability. KEEN, a pioneering force in the energy and engineering sector, offers a comprehensive suite of NDT services, leveraging state-of-the-art technology and experienced professionals to safeguard critical infrastructure and assets.

Our NDT division specializes in conventional methods:

- **Magnetic Particle Testing (MT)**
- **Dye Penetrant Testing (PT)**
- **Ultrasonic Testing (UT)**
- **Radiographic Testing (RT)**

## Our Commitment to Quality and Safety

At Kraft Energy & Engineering Sdn Bhd, we are unwavering in our commitment to quality, safety, and customer satisfaction. Our NDT services are underpinned by:

- **Certified Experts:** Our team of highly skilled NDT technicians possess the necessary certifications and expertise to deliver accurate and reliable results.
- **Advanced Technology:** We employ cutting-edge NDT equipment to ensure precise and efficient inspections.
- **Adherence to Standards:** We rigorously follow industry standards and best practices to maintain the highest quality standards.
- **Safety First:** We prioritize safety and adhere to stringent safety protocols to safeguard our personnel and the environment.

# Services - Electrical, Automation & IoT

In today's complex industrial landscape, the backbone of many processes lies in Programmable Logic Controllers (PLCs) and Human-Machine Interfaces (HMIs). At KEEN, we specialize in the art of PLC and HMI programming, ensuring your systems run smoothly, efficiently, and flawlessly. With a team of highly skilled and experienced engineers, we are your trusted partner for PLC and HMI programming and troubleshooting. Our proficiency extends across a wide range of industries, including manufacturing, automation, and process control.

## PLC Programming

Our PLC programming services are tailored to meet the unique demands of your operation. Whether you require custom control logic, system integration, or upgrades, our experts craft solutions that maximize performance, minimize downtime, and optimize efficiency; Custom Logic: We develop bespoke control logic to suit your specific needs, ensuring that your systems operate precisely as required; PLC Upgrades: If your PLCs need an upgrade, we are adept at modernizing your existing systems to enhance functionality and extend the lifespan of your equipment.

## HMI Programming

The Human-Machine Interface is the bridge between your operators and your machines. Our HMI programming services focus on delivering a user-friendly interface that enhances control and monitoring; Custom HMI Design: We design HMI interfaces that are intuitive, visually appealing, and efficient, making it easier for your operators to manage your systems; Data Visualization: Real-time data visualization is crucial for decision-making. We provide HMI solutions that present data clearly, helping you respond rapidly to changing conditions; Remote Monitoring: Our HMI programming allows for remote monitoring, providing flexibility and accessibility to your system's vital information.

# Services - Manpower Supply (All Services)

KEEN is licensed with PETRONAS to supply personnel of various disciplines and categories to oil & gas operators in Malaysia including Petronas Carigali Sdn Bhd, Petronas Gas Berhad, Shell, Exxon Mobil, Murphy Oil, Sapura Energy, Conoco Phillips and main contractors of these end users. This includes all executives and non-executives that make a Project Management Team (PMT), that is imperative in ensuring a successful and timely project and turnaround delivery.

In addition we have also supplied manpower not only to oil & gas, but general industries, construction and rail industries that includes from professional and experienced management to technicians, skilled and semi-skilled workers: foreigners and local workers across the country.

KEEN ensures that all manpower supplied are of highest quality and meet client's requirements and expectations apart from complying with all local rules and regulations.

We have teams of workers in various disciplines including:

- Engineers (various disciplines)
- Construction Supervisors
- Drilling and Well Completion personnel
- Competent Welders (TIG, SMAW, MIG etc.)
- Skilled Manpower (Pipe Fitter, Blaster & Painter, Rigger, Scaffolder, Electrical & Instrumentation Technician)
- QC Inspectors
- HSE Officers & Supervisors
- Marine Crew & Divers
- Operations & Maintenance Crew
- Industrial Cleaners
- Crane Technician
- Office Support Personnel

# Products - Cargo Handling Equipment

Since its inception, KEEN has been providing engineering, sales, rental, refurbishment, inspection and testing of offshore containers that are strictly in accordance with BS EN 12079 and DNV 2.7-1 to ensure highest safety and quality for fit-to-use containers offshore and onshore.

Certificates of Compliance (COC) which is acquired for every project proves to be KEEN's determination and dedication to provide utmost standard of quality according to design codes along with client requirements. The certificates are issued by classification societies such as Lloyd's Register, Det Norske Veritas (DNV) and Bureau Veritas (BV). Supplied offshore containers are audited at each inspection point and complete with full material trace, QAQC, NDT, load test reports and DNV 2.7-1 / BS EN 12079 certificates.

Apart from fabrication of new units, KEEN also provide various kinds of related individual testing for periodical maintenance according to various international standards and client preferences. Our qualified personnel and certified equipment are ready to serve you at our facilities in Teluk Kalong, Kemaman & Labuan and even on-site.

List of CCU products & services:

- Cargo Containers & Baskets
- Open Top Containers
- Rubbish Basket
- Living Quarters & Offshore Accommodation
- Gas Cylinder Rack
- Transport Skid (Generator, Jet Fuel etc.)
- Tote Tank Frame
- Offshore Steel Pallet
- Visual Inspection
- Non-Destructive Testing (MPI & DPT)
- Load Testing according to BS EN 12079 & DNV 2.7-1
- Pull Test & Drop Test

# Products - Stopaq EasyQote

For more than 30 years, **Stopaq** has been the market leader in developing new products for sealing and corrosion prevention applications while meeting stringent health and safety requirements. Every day, KEEN are searching for new products and unique applications from a total cost approach. This provides our customers and asset owners unique systems that are easily applied and will last for many years. Applications include onshore pipelines, offshore platforms, subsea pipelines, refineries, processing plants and civil structures to name a few.

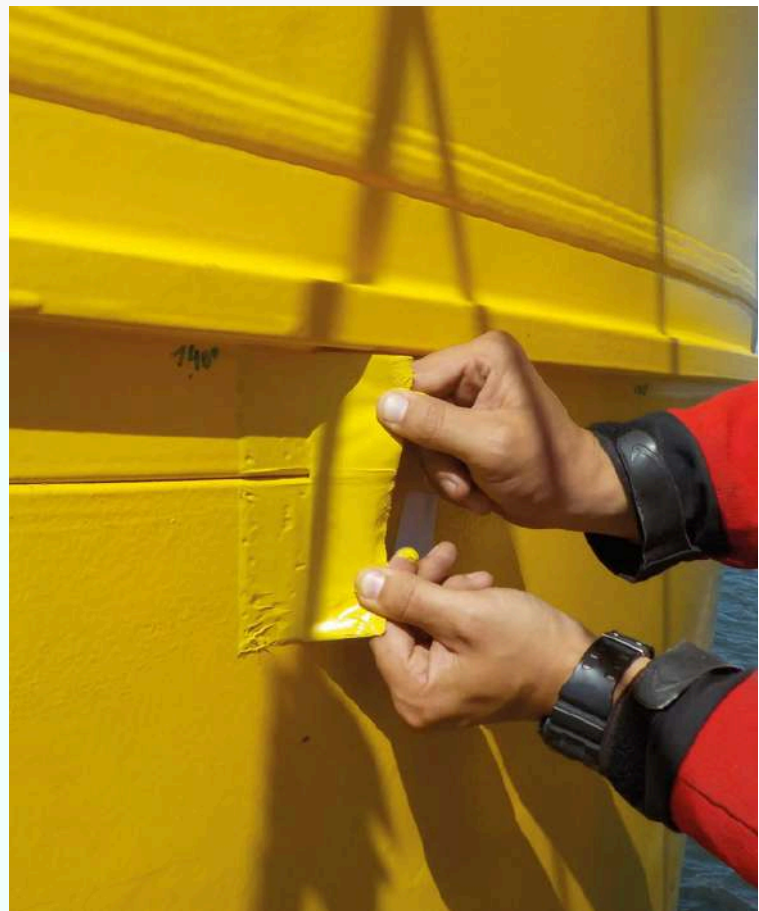

Based on the Stopaq technology, **EasyQote** products are developed for, among others atmospheric applications in the Renewable sector. EasyQote's primary layers consist of a fully amorphous, non-cross-linkable, Polyisobutene composition which is totally impermeable to water, oxygen and bacteria, the elements that commonly cause corrosion. Unlike conventional coating types, the EasyQote compound features a liquid-like behavior to flow and ensure a full wetting of the entire surface of a substrate. This behavior does not change with time, meaning that EasyQote retains its corrosion preventative properties (non-ageing). EasyQote provides superior adhesion to any surface (bare steel or existing coating) through a permanent molecular bonding with the substrate.

With a glass transition temperature of  $-67^{\circ}\text{C}$ , EasyQote has a very wide working environment. The combination of an easy and tolerant surface preparation, St2 is sufficient, simple application and unlimited lifetime means a cost-effective and long-term coating repair solution. Our slogan for this product range is therefore **"a 5-minute coating repair which lasts for more than 30 years."**

EasyQote offers several benefits for corrosion prevention:

- Self-Adhesive:
- Environmentally Friendly
- Long-Lasting Protection
- Easy Application
- Cost-Effective
- Minimum Surface Preparation
- Unlimited Shelf Life
- VOC Free
- 30-Year Lifetime Protection
- Easy Application

**Overall, EasyQote offers a convenient, environmentally friendly, and cost-effective solution for corrosion prevention.**

# Products - Thermal Insulation Coating

**Syneffex™** thermal insulation coatings are the top choice for a wide variety of thermal insulating paint applications over equipment like pipes, pipelines, tanks, ovens, processing vessels, heat exchangers and more. Syneffex™ patented industrial thermal insulation paint solves corrosion-under-insulation (CUI) by both insulating and preventing corrosion with a single product. Our thermal paint coatings are multipurpose spray or paint applied products that are simple to deploy.

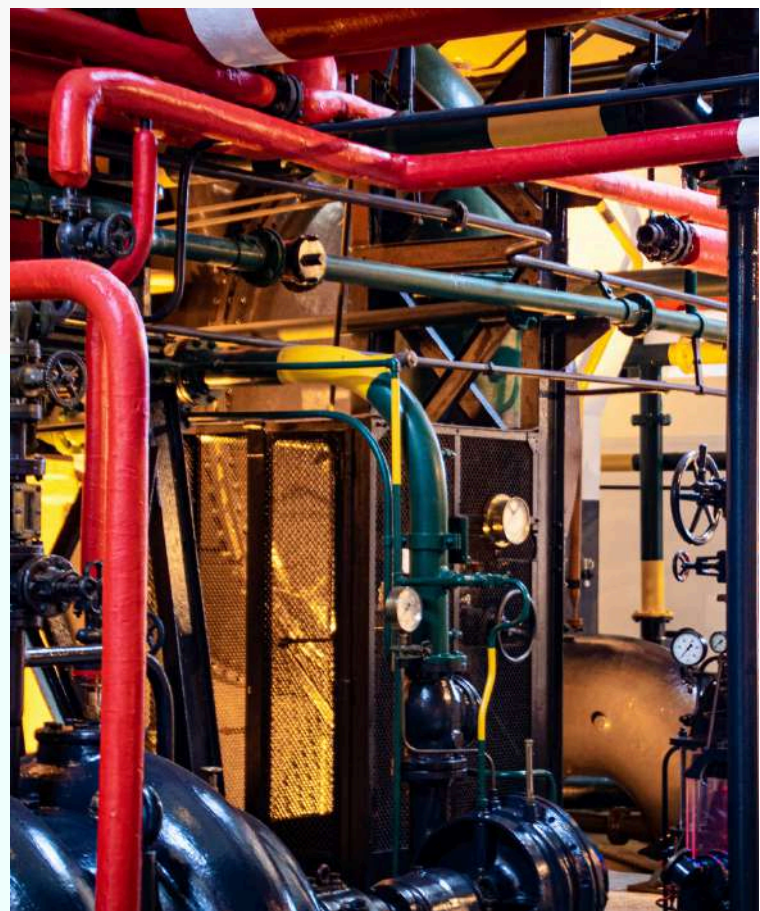

Syneffex™ thermal insulation coatings help organizations improve energy efficiency. They are nano-engineered patented cutting-edge thermal paint coatings that provide next generation performance beyond older, non-patented ceramic insulation products. Additionally, our products are eco-friendly and provide mold-resistant and anti-condensation properties without harmful biocides and other harsh chemicals, which is a significant plus for sustainably-minded companies.

Are you tired of dealing with insulation jackets or insulation covers that don't fit? Spray-on thermal insulating coatings by Syneffex™ fit any shape of equipment and do not require any exterior jacketing. You can spray apply this technology easily while equipment is in-service and our concentrated insulation coatings will work diligently for 5-10 years or more without degrading.

Customers report average energy savings of 20% plus with Syneffex™ Coatings!

- Save energy simply
- Meet corporate energy saving goals
- Quick-curing for fast energy reduction results
- Energy efficiency for equipment and buildings
- Reduce production costs per unit by lowering energy requirements

**#1 Patented Nanotech-Based Thermal Paint That Also Prevents Corrosion. Brilliant!**

# Products - Rental, Trading & Supplies

In order to support KEEN's routine fabrication and construction, new business horizon has emerged and it is trading & supplies. Major projects that acquired by KEEN as an EPCIC player require abundance of raw materials. This triggers our team to source more sophisticatedly in every project. This has given us the opportunity to get better prices direct from mill and OEM through established partnerships.

KEEN with that offers a full range of products mainly for energy, oil & gas, construction and other general industries. We strive to bring the most reliable and high quality products which feature state-of-the-art consumer technology to our customers at competitive prices and affordable payment terms. Our role at KEEN is to provide our customers with variety and value to enhance each customer's right to have the best choices with match his or her needs and requirements.

- Aluminium Sacrificial Anode
- Gas & Process Analyzer
- Rigging & Slings Equipment
- Scaffolding
- Pipes & Fittings
- Valves
- Structural Materials
- Stud Bolt
- Gasket & Insulation Flange (IF) Kit
- Consumables (Welding, Safety, Cutting etc.)
- Load Cell
- Land Transportation
- Automation & Control System
- Rental of Equipment (Welding Machine, Offshore Equipment, Handheld Tools etc.)
- Rental of Cargo Carrying Unit (Cargo Basket, Cargo Container, Tool Box etc.)
- Safety Equipment (Breathing Apparatus Set, Personal Gas Analyzer etc.)
- Marine Fender

# Unmanned Aerial Vehicle (UAV) Services

Kraft Energy & Engineering Sdn Bhd (KEEN) offers specialized Unmanned Aerial Vehicle (UAV) Services tailored to provide state-of-the-art solutions in critical fields. Our UAV services combine precision technology and expert analysis, ensuring optimal results for various industries. The key areas of focus include:

- **Visual & Thermal Inspection:** Comprehensive inspections using high-resolution cameras and advanced thermal imaging to detect structural issues, energy inefficiencies, and potential hazards in infrastructure.
- **Surveying & Mapping:** Accurate and efficient aerial surveys that capture detailed imagery and geospatial data to support land development, infrastructure projects, and environmental studies.
- **Topography:** High-precision topographical mapping to create accurate representations of landforms and terrain features, aiding in project planning and decision-making.
- **Confined Space Inspection:** Safe and efficient UAV inspections in hazardous or hard-to-reach confined spaces such as tanks, pipes, and industrial vessels, reducing risks and downtime while ensuring thorough assessment.
- **Geographic Information System (GIS):** Integration of UAV-captured data into GIS platforms for advanced spatial analysis and data visualization, enabling informed strategic planning.
- **LiDAR Mapping:** Use of Light Detection and Ranging (LiDAR) technology for generating precise 3D models and mapping complex environments with exceptional accuracy.
- **3D Modelling:** Creation of detailed 3D models from UAV data to support architectural design, construction monitoring, and asset management.

KEEN's UAV services leverage cutting-edge technology to provide efficient, reliable, and innovative solutions tailored to meet the evolving needs of our clients.

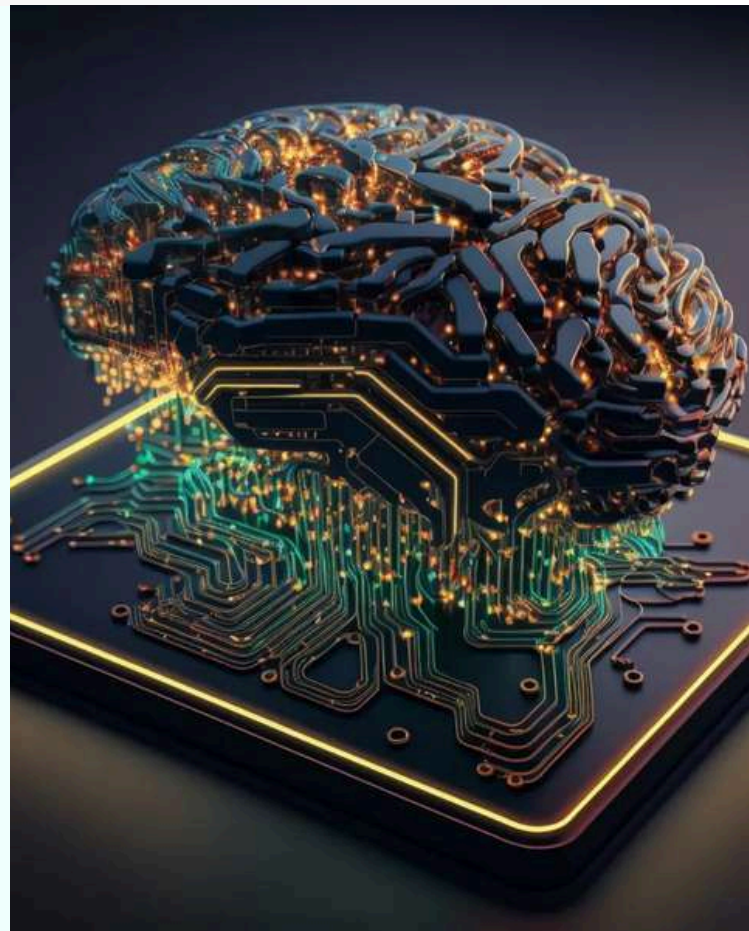

# Software Development & Machine Learning

Kraft Energy & Engineering Sdn Bhd (KEEN) is proud to offer advanced Software Development & Machine Learning Services that harness cutting-edge technology to deliver impactful, customized solutions. Our expertise extends across a variety of focus areas, including:

- **Web-Mobile Apps Development:** Creation of robust, user-friendly web and mobile applications that cater to the unique needs of clients, driving engagement and operational efficiency.
- **Data-Driven Insights & Visualization:** Utilizing comprehensive data analysis to uncover trends, patterns, and actionable insights that inform strategic business decisions.
- **Predictive Analytics:** Leveraging machine learning algorithms to forecast future outcomes, enabling businesses to stay ahead with proactive planning and decision-making.
- **Image Recognition & Object Detection:** Implementation of sophisticated computer vision models for applications such as quality control, surveillance, and automated monitoring.
- **Machine Learning (ML) Model Development:** Designing and deploying tailored machine learning models to address complex problems and optimize workflows.
- **Natural Language Processing (NLP):** Developing NLP solutions for applications like intelligent chatbots, automated content analysis, and sentiment evaluation to enhance user experience and streamline processes.
- **Automated Reporting & Analysis:** Streamlining reporting tasks through automation, providing clear and comprehensive data summaries to support efficient decision-making.

# Key Registrations

## Petronas License

**PETRONAS**

**License to Supply Hydrocarbons to Exporters and Foreign Companies in Malaysia**

**NO. SUL** : 1221978M

# Major Clientele & Projects

	<b>Project Title</b>	<b>Client</b>	<b>Year</b>
01	Term Contract of Scaffolding Services for Scaffolding, Insulation & Painting for PPTSB	Masterscaff Supply Services Sdn Bhd	2016
02	Provision to supply Materials, Equipment and Consumables for Blasting & Painting at T-29202	Masterscaff Supply Services Sdn Bhd	2016
03	Price Agreement to Undertake Maintenance Contract of Rental & Erection BS Tubular Scaffolding	Masterscaff Supply Services Sdn Bhd	2016
04	Painting Work at Plant Operations Division & Centralised Utility Facilities PGB	VH Energy Sdn Bhd	2016
05	Provision to supply Consultancy Services for Four (4) WPS Development – Piping & Pipeline	Sky Energy Services	2016
06	Provision to supply Consultancy Services for Six (6) WPS Development – Piping & Pipeline	Sky Energy Services	2016
07	Provision to supply Manpower (NDT Personnel) c/w Equipment, Tools & Consumables	Global Power Services Sdn Bhd	2016
08	Nitrogen Purging for Optimal, ACM, Oil Line, GPP 6 & Brazing Work for Oxygen Air Separation Unit During Shutdown	Air Products Malaysia Sdn Bhd	2016
09	Provision of Scaffolding, Insulation and Painting Services for Small & Big Bore Piping	Master Scaff Supply Services Sdn Bhd	2016
10	Provision of Cargo Handling Equipment (CHE) Refurbishment and Maintenance	H2R Oil & Gas Services Sdn Bhd	2016
11	Procurement, Construction, Installation and Commissioning of Gas Turbine Online Water Washing on GT-B, C and D	Global Power Services Sdn Bhd	2016
12	Procurement, Construction, Installation and Commissioning of HPRT Auto Seal Top Up Machine	Eagle Burgmann (Malaysia) Sdn Bhd	2016

	<b>Project Title</b>	<b>Client</b>	<b>Year</b>
13	Fabrication of two (2) Hanger Clamps and two (2) Riser Spools for Baram Installation	APS (M) Sdn Bhd	2016
14	Provision of Procurement, Construction & Commissioning of MLNG Dua Rejuvenation (MDR) Project	Hyperwave Systems Eng. Sdn Bhd	2016 – 2017
15	Detailed Engineering Design for TurboPhase Module (TPM) System	PowerPhase LLC – GPS	2017
16	Engineering, Procurement and Construction (EPC) of Air Injection Manifold and Fuel Gas Tie-In	PowerPhase LLC – GPS	2017
17	Engineering, Procurement and Construction (EPC) of Four (4) Generator Transport Skid	Verdetech Energy Sdn Bhd	2017
18	Servicing & Reconditioning of Heat Exchanger AL M10-B (4 Units) & M6-B (1 Unit)	Zrotor Solutions Sdn Bhd	2017
19	MLNG 112" Sea Cooling Water Pipe Internal Coating Rejuvenation	Hyperwave Systems Eng. Sdn Bhd	2017
20	Welding Procedure Specification (WPS) Consultancy Services and Test Piece Preparation	AJK Piping & Construction	2017
21	Provision of Flanges & Valve Boxes Insulation	Pioneer Engineering Sdn Bhd	2017
22	Structural Repair & Strengthening for Gallery Conveyor X82-03 at Petronas Fertilizer Kedah (PFK) Urea Export Terminal	Apitech Eng. & Services Sdn Bhd	2017
23	Provision to Supply Plastic Pallet X Series (X1111D4-1A)	Apitech Eng. & Services Sdn Bhd	2017
24	Provision to Fabricate Stainless Steel ZLet & 6" Barred Strainers for PL 119	APS (M) Sdn Bhd	2018

	<b>Project Title</b>	<b>Client</b>	<b>Year</b>
25	Provision to Fabricate Stainless Steel ZLet & 6" Barred Strainers for PL 119	APS (M) Sdn Bhd	2018
26	Provision of Mobilization of Technician(s) c/w Necessary Equipment Onboard FSO For Visual Inspection of Lifting Gears	Altus Oil & Gas Malaysia Sdn Bhd	2018
27	Provision to Supply Bulk Materials for PCC of MDR Project at Petronas MLNG Dua	Hyperwave Systems Eng. Sdn Bhd	2018
29	Provision to Fabricate Pipe Spools, Supply Anodes for Provision of 112" Sea Cooling Water Internal Pipe	Dulang Engineering Sdn Bhd	2018
30	Provision to Supply Anodes, Stud Bolts and Fabricate Fitting Plates for Provision of 112" Sea Cooling Water Internal Pipe	Pioneer Engineering Sdn Bhd	2018
31	Provision to Supply Anodes, Stud Bolts and Fabricate Fitting Plates for Provision of 112" Sea Cooling Water Internal Pipe	Rahabco Eng. & Construction Sdn Bhd	2018
32	Refurbishment & Maintenance (Internal & External) of 2x 17,000 liters Vertical Cryogenic Tank	Southern Industrial Gas Sdn Bhd	2018
33	Provision to Supply Pipes for Riser Guard (By Sea & Air Freight) – CS 14" & 16"	Laras Teknik Sdn Bhd	2018
34	Fabrication of Riser Guard Clamps (36 Units) – WLP-C, BEP-A, TKP-B & TKDP-B	Laras Teknik Sdn Bhd	2018
35	Supply of Piping Materials for D35DP-B & Bayan Riser Guards (2 Sets)	Laras Teknik Sdn Bhd	2018
36	Supply of Materials for D35DP-B Riser Guard / Jacket Leg / Jacket Brace Clamp & Rolled Plate (Total 6 Nos)	Laras Teknik Sdn Bhd	2018
37	Supply of Piping Materials & Four (4) Sets of SS316/L End Fittings for BCOT Project	OPDEX Eng. Services Sdn Bhd	2019

	<b>Project Title</b>	<b>Client</b>	<b>Year</b>
38	Provision of Fabrication & Installation for BCOT Effluent Piping Upgrade for PCSB	OPDEX Eng. Services Sdn Bhd	2019
39	Refurbishment of 6,000 liters Oxygen Cryogenic Tank	Leeden National Oxygen Ltd	2019
40	Supply of Materials for Provision of Pig Trap Barrel Fabrication for PL264 Topside Modification & Installation (Bintulu)	Laras Teknik Sdn Bhd	2019
41	Supply of Materials for PL 221 & 218 Topside Bypass Piping for Strainer Installation at WLDP-B	Laras Teknik Sdn Bhd	2020
42	Provision of Industrial Cleaning for Submarine Maintenance and Shutdown	OPDEX Eng. Services Sdn Bhd	2020
43	Design, Supply, Delivery to Site, Installation, Completion, Testing, Commissioning / EPCIC and Guarantee for Twelve (12) Months of One (1) Unit Electrostatic Precipitator (ESP) for Existing Boiler at Kilang Sawit Bukit Bandi	OREC Engineering Sdn Bhd	2020 – 2022
44	Valve & Safety Gate Maintenance for 16-SKIM Package	Syarikat Air Selangor Sdn Bhd	2020
45	Supply of Spiral Wound Gasket & Stud Bolt	Gas Malaysia Distribution Sdn Bhd	2020
46	Term Agreement for Industrial Cleaning	Boustead Naval Corporation Sdn Bhd	2020 – 2022
47	Provision to Supply Manpower, Equipment, Tools & Consumables for Offshore Skid Repair Works	H. Rosen Engineering (M) Sdn Bhd	2022
48	Provision to Supply, Manpower, Equipment, Tools & Consumables for Replacement of Cooling Water System (Section 45)	Emery Olechemicals Sdn Bhd	2022

	<b>Project Title</b>	<b>Client</b>	<b>Year</b>
49	Remote Aerial Visual & Thermal Inspection Using UAV on Flare's Tips & Boom	OFO Tech Sdn Bhd	2022
50	2D & 3D UAV Survey Mapping for Gas Pipeline Propose Alignment (Klang)	OFO Tech Sdn Bhd	2022
51	Provision of Train Cleaning Services at MRT Sg Buloh Depot	Hyundai Rotem Company	2022
52	Fabrication of Conductor Clamp & Delivery to Labuan for Hibiscus Petroleum Berhad	Semarak Petro Sdn Bhd	2022 – 2023
53	Provision of Train Cleaning Services at MRT Serdang Depot	Hyundai Rotem Company	2022 – 2023
54	Provision to Supply Fabrication, Blasting & Painting & NDT Services for Marine Equipment	SS Rover Sdn Bhd	2023
55	Bridge Distress Investigation Using Unmanned Aerial Vehicle (UAV) Visual Inspection	OFO Tech Sdn Bhd	2023
56	Provision of Blasting & Painting Services for Piggig Equipment	H. Rosen Engineering (M) Sdn Bhd	2023
57	Term Contract for Mechanical and Rotating Asset Management Technical Manpower Supply for Petronas Chemicals MTBE Sdn Bhd and PDH Plant	Petronas Chemicals MTBE Sdn Bhd	2023 – 2026
58	Provision of Cargo Handling Equipment (CHE) Rental for Jadestone Operations	Jadestone Energy (M) Pte Ltd	2023 – 2024
59	Provision of Drafting Electrical Project Documentation using EPLAN	Schiff Technology Sdn Bhd	2023

	<b>Project Title</b>	<b>Client</b>	<b>Year</b>
60	Fabrication Work for MMT 2.0 Test Spools for Petronas Carigali Sdn Bhd - Sabah Asset (PCSB-SBA)	Transkor Technology Services Sdn Bhd	2023
61	Engineering, Procurement & Construction (EPC) of Snuffing System Package Skid for Petrobras	Malgaz Industries Sdn Bhd	2023
62	Supply of Purified Hydrogen Gas c/w Certified Gas Rack for KUTS Project	Mobilus Sdn Bhd	2023
63	Provision to Supply DNV 2.7-1 Offshore Container, Cargo Basket & Gas Rack	CS Engineering Sdn Bhd	2024
64	Provision of Blasting & Painting Services for IP Caging & Equipment	H. Rosen Engineering (M) Sdn Bhd	2024
65	Modification of Pressure Vessels for Hydrogen Plant Upgrading in PRSB	Hi Technics System Sdn Bhd	2024
